

How to Project a Powerful Image and Acquire Impressive Interaction Skills

Developing a powerful image and possessing an impressive interaction skill set is like constructing a house. Start with a solid foundation and finish with an indestructible structure so the house can withstand an unexpected event. Do the same with your image and then **take your interaction skills to a higher level!** Skip even on step and your efforts could collapse.

Discover the formulas and personal strategies that make it all work. Apply these personal formulas to a variety of personal and professional situations to become more comfortable and effective in everything you do.

You often hear: You never get a second chance to make a good first impression. This statement is intimidating when you have from seven to seventeen seconds to impress or not impress someone. When I first attended Gloria's workshop, I was hooked! Since then, I have hired Gloria for several workshops in different states. Over the years, I have used the techniques that I have learned from her, and they have helped me boost my confidence whenever I find myself in an unfamiliar setting. Gloria, thank you so much! I look forward to working with you for many more years. —Elida Sarmiento, Hispanic Affairs Advisory Council, SSA
